Forward-Looking Statements

This news release contains "forward-looking information" within the meaning of applicable Canadian securities legislation and "forward-looking statements" within the meaning of United States federal securities legislation (collectively, "forward-looking statements"). All statements

other than statements of historical facts included in this press release, including statements regarding our industry and our prospects, plans, financial position and business strategy, may constitute forward-looking statements. These forward-looking statements are based on current expectations, estimates, forecasts and projections about the industries in which we operate as well as beliefs and assumptions made by our management. Such statements include, in particular, statements about our plans, prospects, financial position and business strategies. Words such as “may,” “will,” “expect,” “continue,” “intend,” “estimate,” “anticipate,” “plan,” “foresee,” “believe” or “seek” or the negatives of these terms or variations of them or similar terminology are intended to identify such forward-looking statements. Although we believe that the expectations reflected in these forward-looking statements are reasonable, these statements, by their nature, involve risks and uncertainties and are not guarantees of future performance. Such statements are also subject to assumptions concerning, among other things: our anticipated business strategies; anticipated trends in our business; and our ability to continue to control costs. We can give no assurance that these estimates and expectations will prove to have been correct. Actual outcomes and results may, and often do, differ from what is expressed, implied or projected in such forward-looking statements, and such differences may be material. Some important factors that could cause actual results to differ materially from those expressed in these forward-looking statements include, but are not limited to: general economic, financial or market conditions; the intensity of competitive activity in the industries in which we operate, including competition from alternative means of programs and content transmission; new technologies that would change consumer behaviour toward our product suite; unanticipated higher capital spending required or to address continued development of competitive alternative technologies or the inability to obtain additional capital to continue the development of our business; our ability to implement successfully our business and operating strategies and manage our growth and expansion; disruptions to the network through which we provide our digital television, Internet access and telephony services, and our ability to protect such services from piracy; labour disputes or strikes; changes in our ability to obtain services and equipment critical to our operations; changes in laws and regulations, or in their interpretations, which could result, among other things, in the loss (or reduction in value) of our licenses or markets or in an increase in competition, compliance costs or capital expenditures; our substantial indebtedness, the tightening of credit markets, and the restrictions on our business imposed by the terms of our debt; and interest rate fluctuations that affect a portion of our interest payment requirements on long-term debt. We caution you that the above list of cautionary statements is not exhaustive. These and other factors could cause actual results to differ materially from our expectations expressed in the forward-looking statements included in this press release, and you are encouraged to read “Item 3. Key Information – Risk Factors” as well as statements located elsewhere in Videotron’s annual report on Form 20-F for the year ended December 31, 2014 for further details and descriptions of these and other factors.
